Mayur Chinni

Senior Scrum Master | Agile Delivery Lead | PSM I Certified | SAFe | Immediate Joiner

Hyderabad, India | chmayur7@gmail.com | +91-9052799798 | linkedin.com/in/mayurchinni

PROFESSIONAL SUMMARY

Senior Scrum Master with Product-minded problem solver with 12+ years in IT and 5+ years leading Agile teams across complex, globally distributed environments.

Think of me as an Agile roller-coaster rider I Quick work to resolve and enable the teams. Investigate and adapt. Monitor the parameters closely - Velocity, Sprint Predictability, cycle time, throughput, WIP, flow metrics, defects, risks, dependencies, and team health become signals for better decisions.

My Operational Creed: Identify the problem, bring the right people together, remove the friction, make the work visible, and get it done. Enable -> Improve -> Adapt

CORE COMPETENCIES

- Servant Leadership — SAFe PI Planning, ART, Scrum of Scrums, Inspect and Adapt, System Demos
- Coaching, Mentoring and Training — Agile, Lean, Scrum, Kanban, XP — team maturity and self-organization
- Impediment Removal, Risk Management, Dependency Management, RAID Logs, Escalation Governance
- Product Owner Partnership — Backlog Refinement, Prioritization, User Stories, Acceptance Criteria, DoD, DoR
- KPIs - Sprint Predictability improved from 53% to 95%, Velocity improved by 20%, Burn-down, Cycle Time, Throughput, WIP, Flow Metrics, Delivery Health for daily, weekly and stakeholder visibility using Power BI
- Tools - Jira, Confluence, Azure DevOps, Rally, Miro, Asana, MS Teams — dashboards, reporting, hygiene
- QA Engineering — Software Testing, Test Case Management, Defect Tracking, Release Readiness
- AI Delivery — Gemini, Claude, Panaya — workflow automation, productivity
- Salesforce Platform (ECAS), MuleSoft Integration, Sales Cloud, Service Cloud, Experience Cloud

PROFESSIONAL EXPERIENCE

Senior Scrum Master | Infosys | Dec 2023 – Apr 2026

Hyderabad, India | Hybrid | SAFe | Salesforce ECAS Unit | Telecom, Networking ARTs | India-US

- Managed 5 of 9 teams within the Agile Release Train — facilitated all Scrum and SAFe ceremonies including Sprint Planning, Daily Stand-ups, Backlog Refinement, Sprint Reviews, Retrospectives, PI Planning, ART Syncs, Scrum of Scrums, Inspect and Adapt workshops, and System Demos, driving disciplined execution and team alignment across concurrent globally distributed India-US programs
- Partnered with Product Owners on continuous backlog refinement, user story writing, story splitting, acceptance criteria, Definition of Done, Definition of Ready, and capacity planning — maintaining healthy sprint-ready backlogs across all 5 teams at all times.
- KPIs tracked – Sprint Predictability, velocity, burn-down, burn-up, cycle time, throughput, WIP, flow metrics, delivery health, sprint commitment reliability, and team health — presenting data-driven insights to senior leadership and RTE through structured Jira dashboards and executive reports in Jira, Confluence, Azure DevOps, and Rally.
- Proactively managed risks, impediments, and cross-team dependencies — maintaining RAID logs, coordinating structured escalation governance, tracking production defect remediation.
- Applied AI — leveraged Gemini, otter and Claude daily for ceremony prep, note capture, status reporting, and workflow automation, reducing manual admin work and enhancing team productivity
- Active participation in PI Planning, and EPMO Communities of Practice — coaching Scrum Masters, influencing delivery best practices, and contributing to organizational Agile maturity improvements.

Scrum Master | QA Lead | TechMojo | Oct 2020 – Mar 2023

Hyderabad, India | Hybrid | Gaming, Gambling, Payments

- Built the organization's complete Agile delivery culture from scratch as first Scrum Master team — facilitated all ceremonies, coached teams on Agile principles, partnered with Product Owners on backlog management and DoD, managed RAID logs and risks, tracked velocity and flow metrics, and coordinated offshore-onsite India-US delivery with zero critical failures throughout tenure.
- Led Front office, Back office - Casino and Betting applications integration team for 2 years. Managed end-to-end delivery connecting CRM with payment gateways and financial services platforms, coordinating API dependencies release management under PCI-DSS compliance.
- Delivered 2 years of casino and bet related sites delivery - Spearheaded Scrum Ceremonies, Coaching the teams to adapt, Test management, defect lifecycle management, acceptance criteria validation, cross-browser testing, and release readiness governance.

Senior QA Engineer | Accenture | Oct 2013 – Sep 2020

Hyderabad, India | Insurance, Energy, Aviation, Banking and Financial Services | Global Enterprise Programs

- 8 years of Quality Engineering excellence at Accenture across 20 plus global enterprise programs in Insurance (P&C), Banking, Aviation, CRMs like Salesforce, Net suite, SAP VIM — developing deep coaching, stakeholder management, risk governance, software testing, defect tracking, test environment management, and cross-functional delivery capabilities across complex globally distributed India-US-UK teams.
- Worked on insurance applications supporting core P&C processes, including policy lifecycle, endorsements, renewals, underwriting, rating and billing, with strong focus on functional and integration testing.
- Validated insurance business requirements through test planning, test execution, defect management and end-to-end integration testing across policy, customer, payment and downstream systems.
- Participated in Agile ceremonies, managed cross-team QA dependencies, coordinated offshore-onsite handshakes, tracked metrics, managed vendor relationships, contributed to Communities of Practice, and mentored junior engineers throughout all global program engagements.

KEY ACHIEVEMENTS

- 5 of 9 ART teams managed with program scope in the organization with zero escalations, measurable velocity improvement, and consistent on-time delivery across all concurrent programs.
- Accelerator award through client's feedback for 2 consecutive years
- Payments, Front Office, Back-office management - CRM and Integration expertise for Gaming and Gambling platform for 25 Casino sites
